RE: Monday, November 19th PA Day

The November 19th PA Day will be multi-themed. A variety of professional learning opportunities will be provided including topics such as mathematics, literacy, mental health and wellbeing, etc.

We will begin the day with a keynote address by Sam Demma: One Teacher Away.

Your actions matter. You're making a huge impact. Your role in education is similar to a gardener. You plant seeds, water them and often don't see them grow. Sometimes it takes 15 years before a student reaches out to tell you how much of an impact you had on them.

The morning will continue with two workshops and in the afternoon, schools will continue the conversation on school improvement planning for student achievement and well-being.

Please note, all RECEs will attend full day training on Behaviour Management System.

As we continue in this time of Covid-19, all staff will report to their home school for a combination of small gatherings where public health guidelines will be followed and zoom for portions of our day.
