

PA Day Agenda

Date: June 5, 2026

Description:

Board Day: Elementary: Assessment & Evaluation

Elementary educators will review student assessments and complete Term 1 Report Cards, and the Kindergarten Communication of Learning.

Board Day: Secondary: Skilled Trades, STEM and Technology Career Pathways

Secondary educators will attend a full day of professional development at Cambrian College, focused on skilled trades, STEM, and technology career pathways. The day will feature keynote speaker Dr. Jon Callegher who will explore strategies to better engage students in apprenticeship and skilled trades careers through his presentation *Gen Z and the Apprenticeship Opportunity: How to Attract Gen Z to the Skilled Trades*. Educators will engage in hands-on activities, explore post-secondary programs and facilities, and gain insight into emerging roles in the skilled trades, manufacturing, engineering technology, and related STEM fields. This day of learning is designed to strengthen pathway awareness and help embed authentic career connections within secondary programming.
